PLANTS vs ZOMBIES
Adventures

TRAVEL  **GUIDE**

An exciting part of any adventure is the preparation — finding great advice from ~~survivors~~ travelers who've already made the journey. That's why we're sharing some of our best travel tips* with you. Be sure to use them and make the most of your adventures in Big Zombie Country.

Enjoy!

1. **Plant before Road Trips.** Be sure to load up your planter boxes with seeds before you take a Road Trip. When you come back, you'll have fully grown plants waiting for you. 
2. **Location, location, location!** When placing plants in combat, not all spots are created equal. Take advantage of your plants' range and pathway corners to find some great spots for maximum damage.
3. **Wall-nuts and intersections** — no matter which paths the zombies take in PvZ Adventures, a great way to stop them is to place Wall-nuts at the intersections. Wall-nuts can stop zombies from multiple lanes, and they don't have to be directly in front of the zombie to attract its attention. 

4. **You can use Zombucks to buy more buildings and upgrade your existing ones.** This will help you generate coins faster and grow more plants. 

5. **Edit Mode is great for making things just the way you like—** and for saving your brains. You can move anything in your town, including buildings, decorations, plants and paths. Plus, you can — and should! — design your own custom pathways to better protect your buildings from zombies.

6. **Be prepared.** As you unlock new buildings in town, make sure to set up a good defense for each building right away. Once the zombies start their invasion, you only have 30 seconds for any final preparations — so make them count! 

7. **Explosive trail mix** — Wall-nuts and Cherry Bombs make a potent combo. Wait until a bunch of zombies have piled up next to your Wall-nut and blow them all away with a Cherry Bomb!

8. **Plant Perk and Zombie Freeze** are powerful tools for powering up plants and slowing down zombies. But be careful: they cost 25 Sun per use, so don't overspend — you need sun to place plants. 

9. **Send friends a challenge!** If you have some extra Zombucks lying around, you can send a wave of zombies to your friends' town and earn extra coins. The more you play, the stronger the zombies you unlock.

10. **Choose plants wisely.** As you unlock new plants, you will have to decide which plants to bring with you into each combat. If you are having a hard time on a level, try a different combination of plants for maximum zombie zapping.

*Big Zombie Country Tourism Board is sure you'll find your own tips that are actually "the best." If you do, please be sure to share them with the world.
